

Cemento

Design Guide

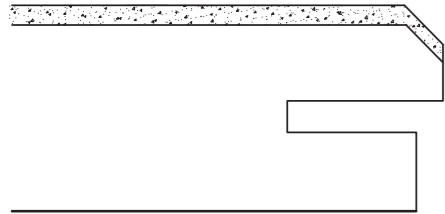

for lightweight Cimento®

Cemento edge guide

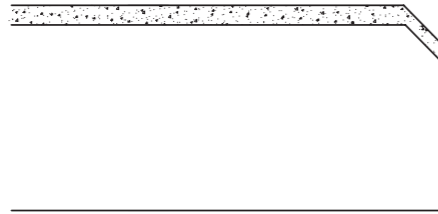

The overall price of our lightweight panels can vary depending on what edge is right for the job. As a general rule, edges 01 - 06 are included in our standard pricing. Edges 07 - 12 will incur additional costs. For a detailed quote, please send design drawings to enquiries@cemento.co.uk

Build your **internal** wall

The following diagrams depict panel joints for internal wall panelling or joinery. Go on, have some fun. We encourage you to cut along the dashed lines and have a play with the design elements.

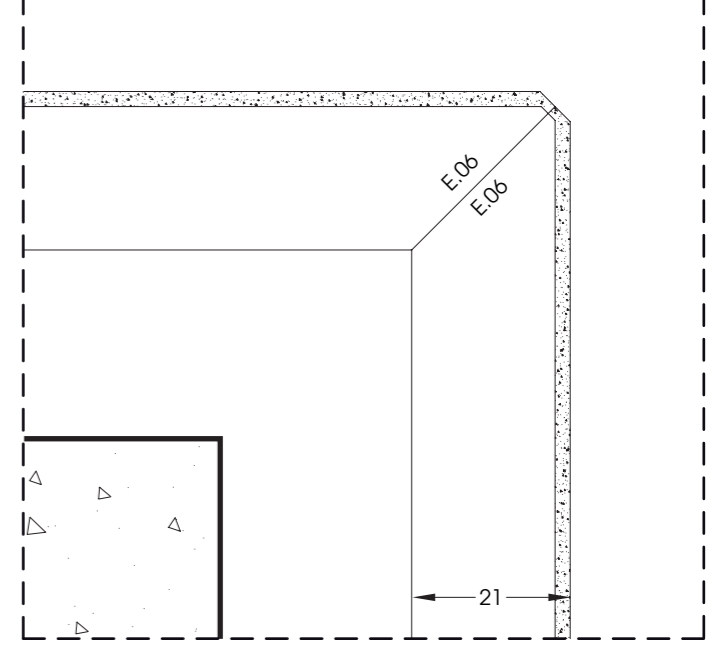

Scale 1:1
Substrate: 19mm MFD

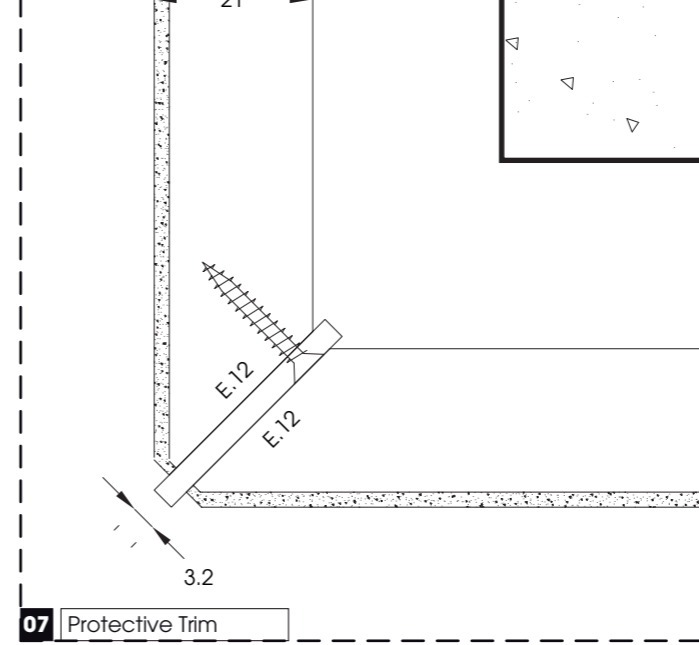

05 Overlap Corner

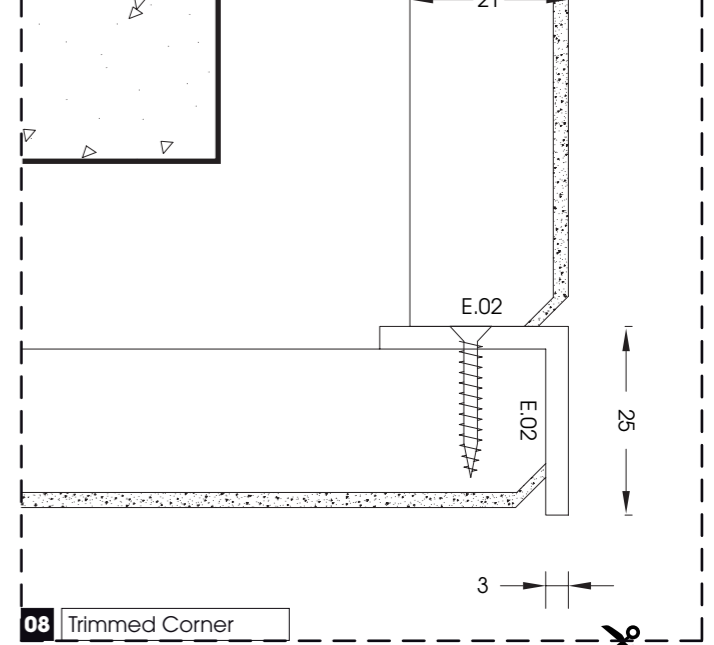

06 Dressed Corner

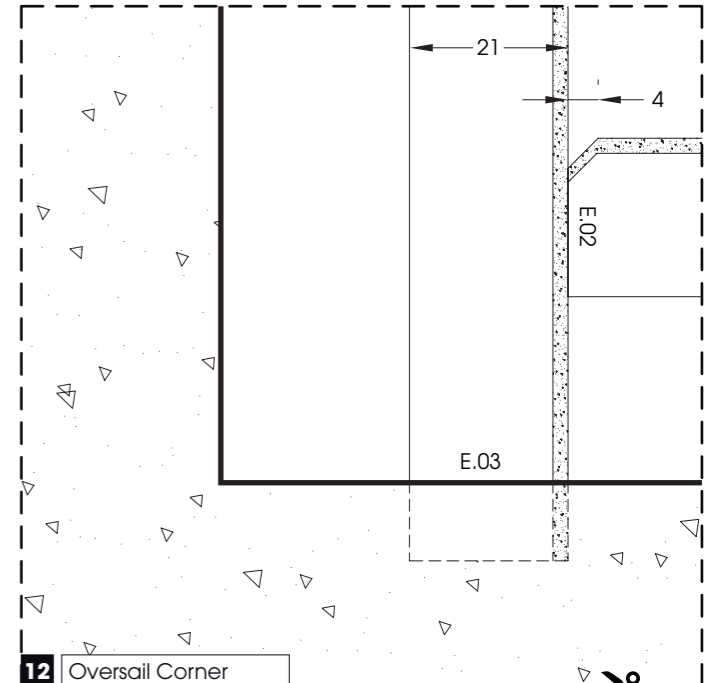

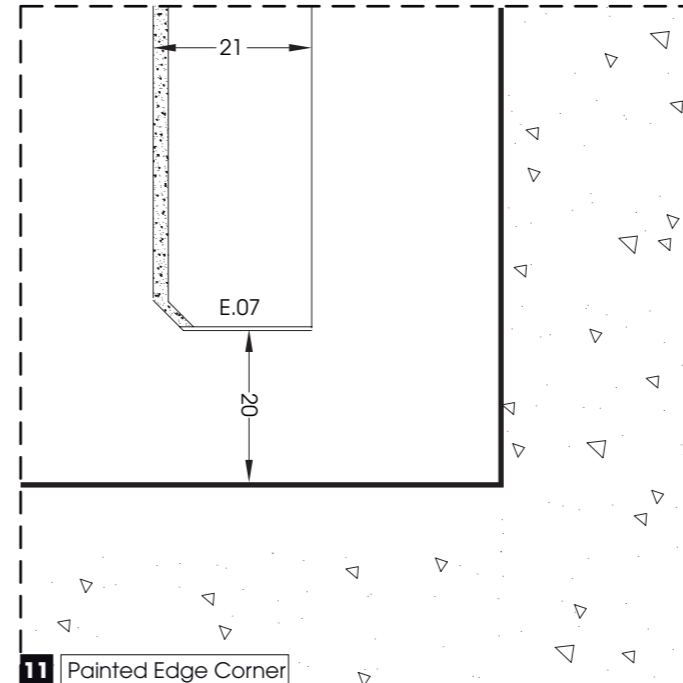

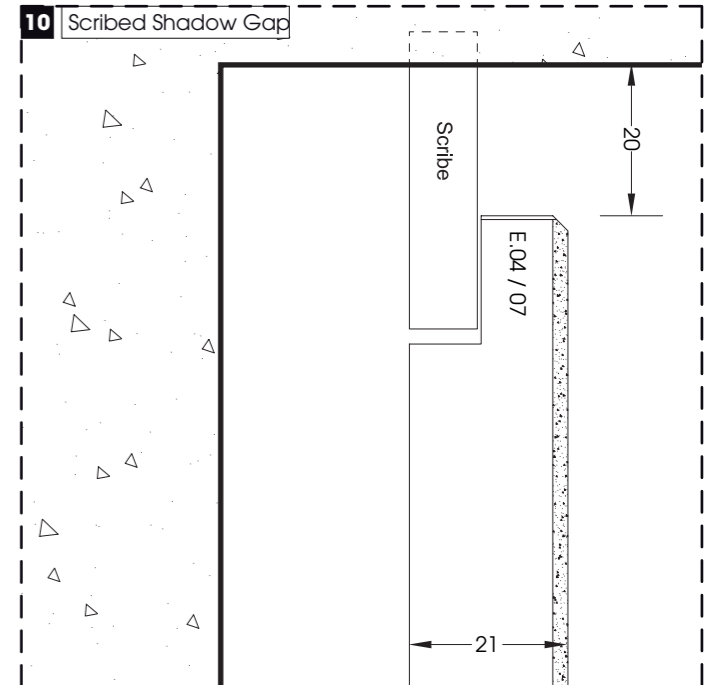

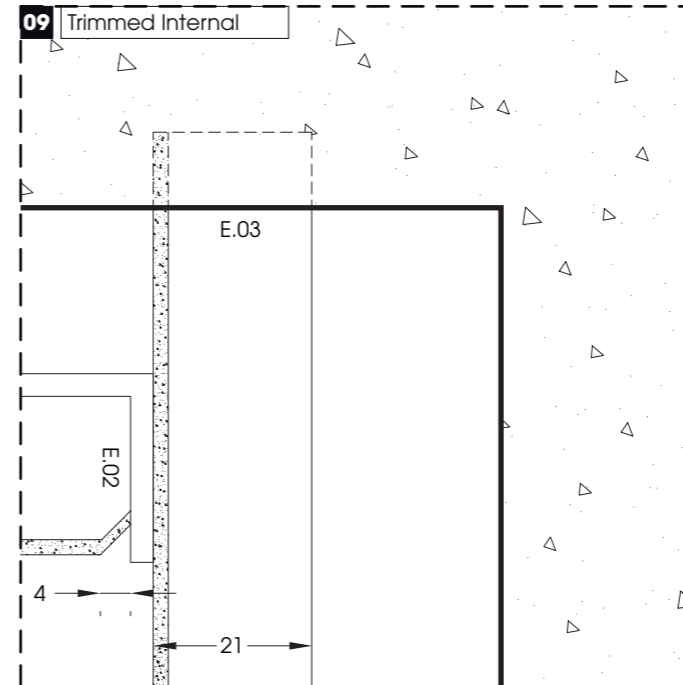

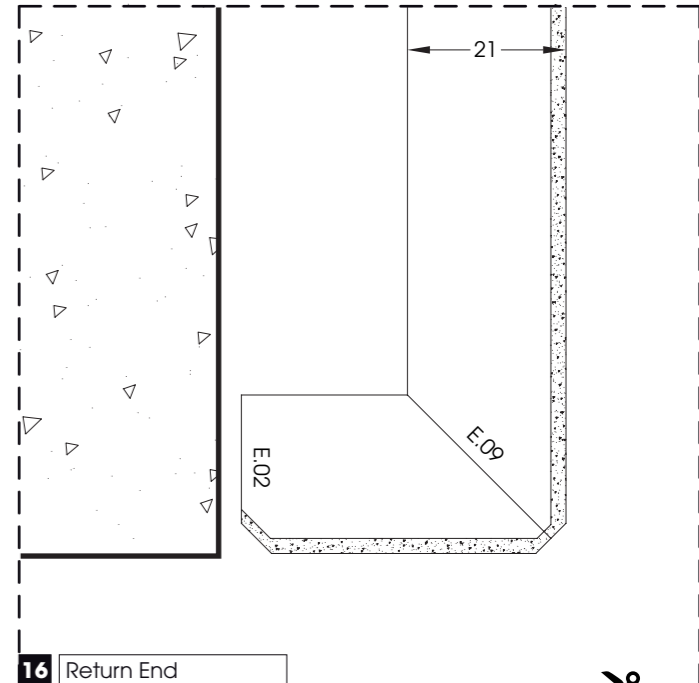

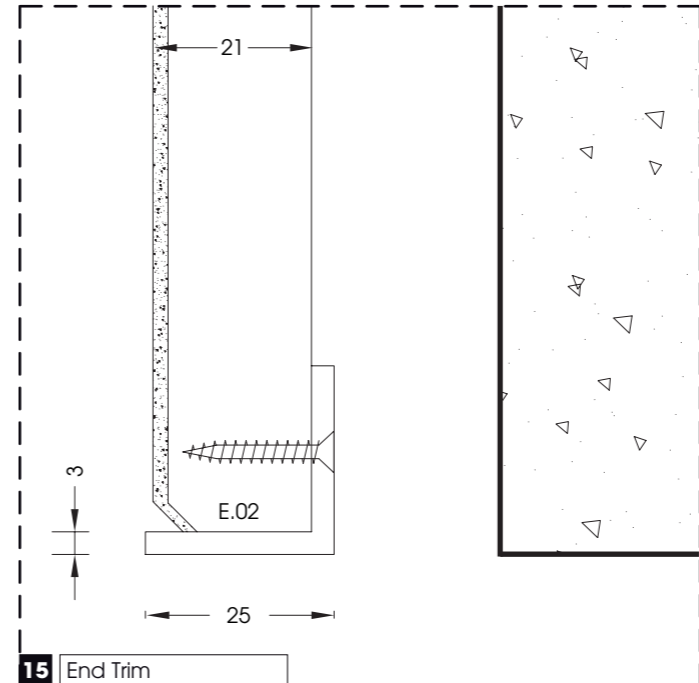

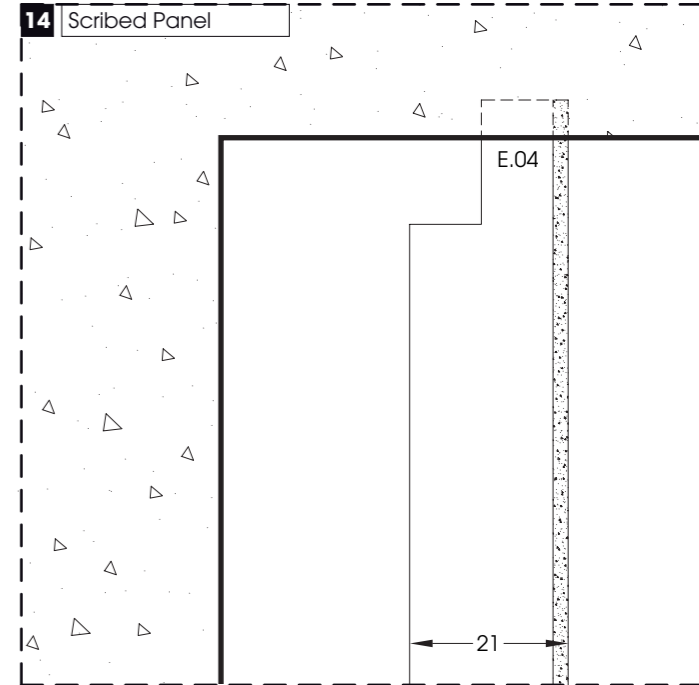

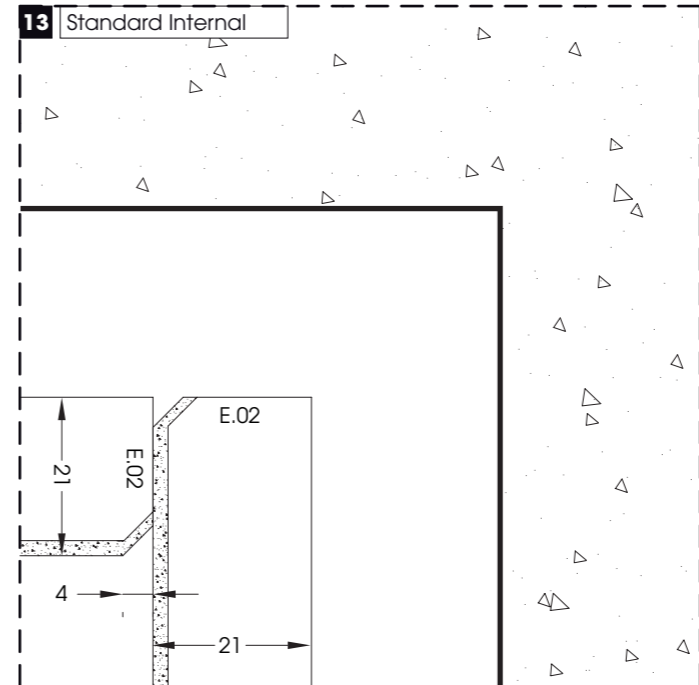

07 Protective Trim

08 Trimmed Corner

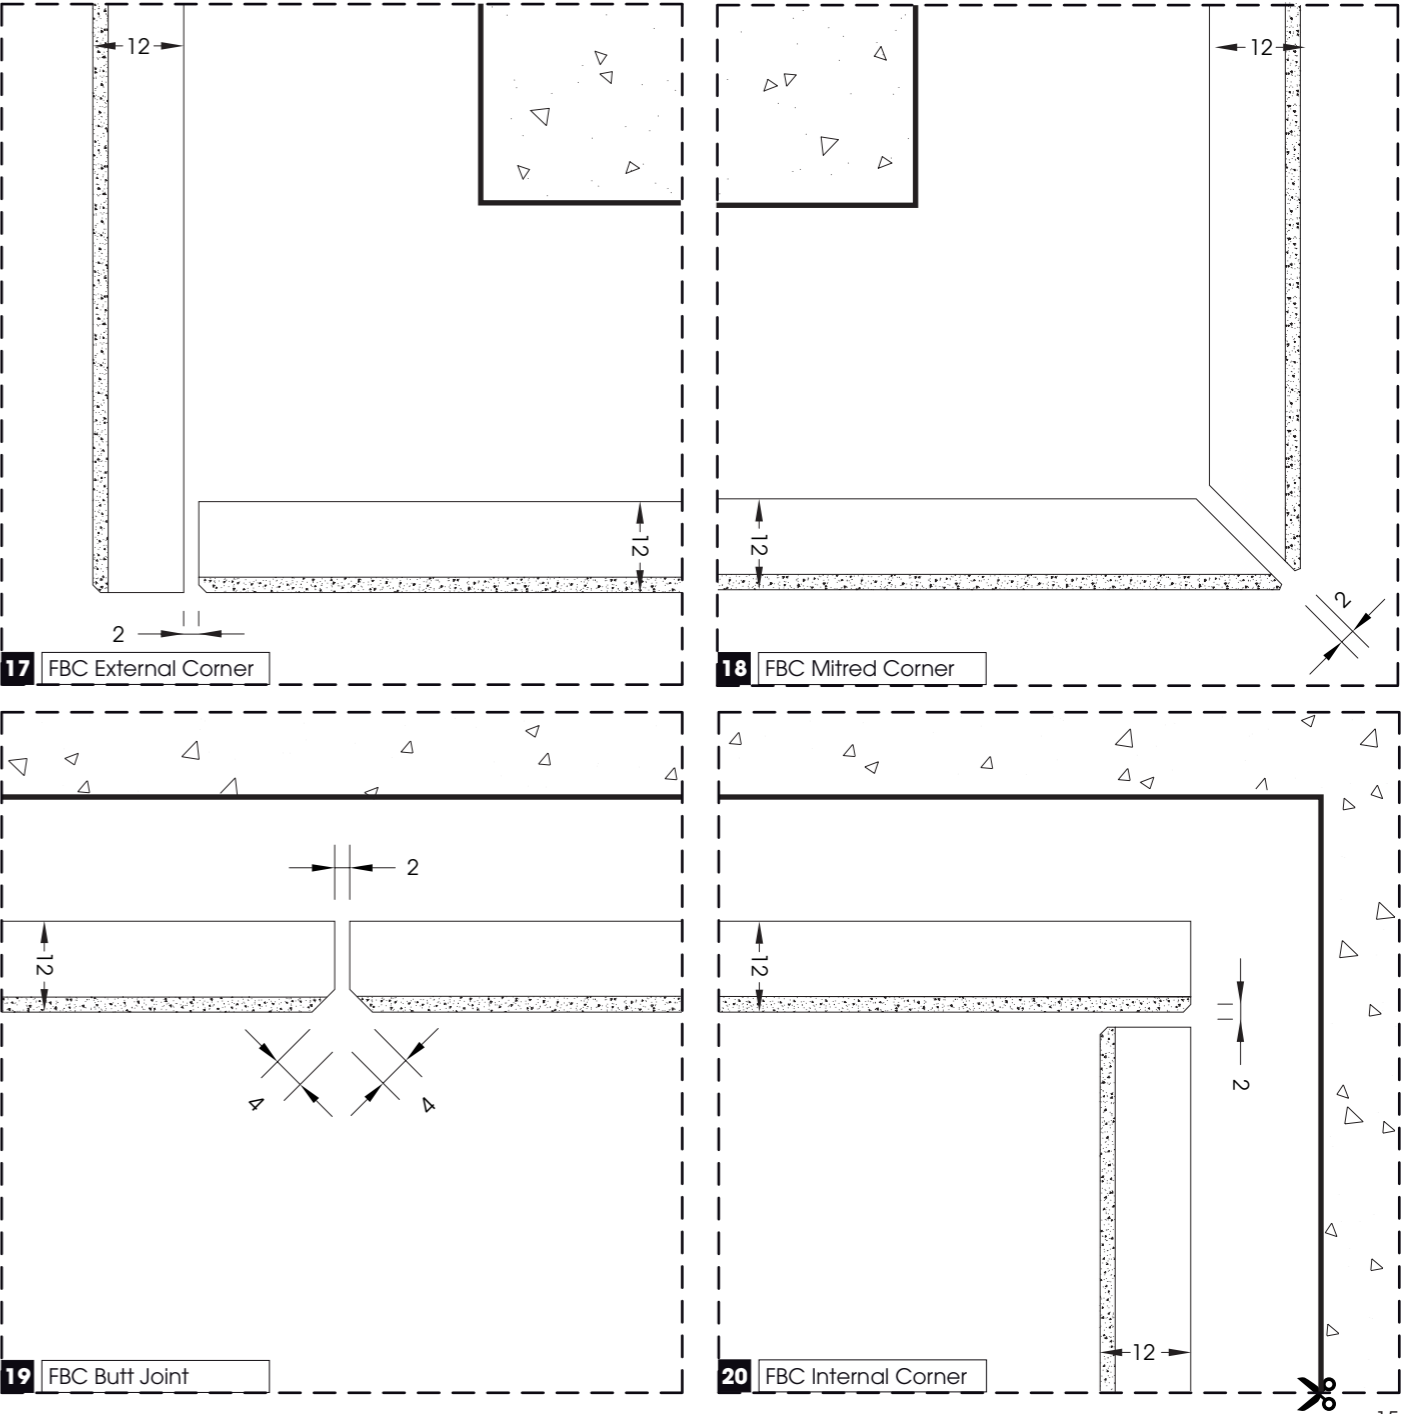

Build your external wall

Our FBC (fibre Cement) boards are suitable for external cladding. Note that this product must have a nominal gap at joints between panels.
